Design Meets Comfort

Cumbria Comfort stairlift for indoor straight staircases offers outstanding design from chair to rail together with high functionality and comfort. The chair has been awarded the "Rehacare Design Award 2008/2009 Good Design" and meets the highest aesthetic requirements. The Cumbria Comfort is quick and easy to install and combines reliable tried-and-tested technology with modern design and comfort at a competitive price.

The seat is ergonomically designed and generously upholstered, has a linked seat and footrest, with an integral, retractable safety belt as standard.

The curved foldable arm rests and retractable safety belt deliver security when travelling on the stairlift.

Cumbria Comfort has a choice of four different seat upholstery colour options which blend perfectly with different décors.

Reliable Easy to Use Technology

Cumbria Comfort is operated by a joystick control, which has been designed in consultation with occupational therapists. The joystick control is simply pushed in the required direction to move the stairlift up or down the stairs. For safety reasons the joystick can be removed to prevent unauthorised use. The stairlift is recharged automatically at the upper and lower stops to ensure the stair lift is always ready for use. An arrival alert indicates that the lift has arrived at the top landing and it is safe to get off the stairlift.

Cumbria Comfort has armrests and a footrest that can be folded away when not in use, to keep the stairs free for other users. The stairlift can also be "called" and "sent" by remote control so that it can be parked out of the way or used by more than one person.

Highest Standards of Safety

Cumbria Comfort meets the most stringent safety standards in the industry, and conforms to the latest European Standard EN 81-40.

Always Put Customer Service First

As one of only a few manufacturers who are members of LEIA (Lift and Escalator Industry Association) you can have complete peace of mind, safe in the knowledge that you have chosen a company who have built a long and enviable reputation as a manufacturer

'who always put customer service first'.
