Lift Able

ThyssenKrupp

Levant really is the next generation stairlift

the levant's design is simple, sturdy and above all matches most accessibility requirements

Options

- Fully automatic folding hinge.
- Heavy duty option up to 146kg.

Seat

The ergonomically designed seat makes the ride smooth and comfortable. The seat is wide providing spacious seating. When the lift is folded up, there is still plenty of space for other stair users.

Padding

The thick and luxurious padding ensures a firm but soft seat. The sisal colour of the padding is a neutral colour which will match with any internal décor. The upholstery is fire retardant, liquid repellent and easy to clean.

Seat Belt

A seat belt as standard gives the user maximum security whilst travelling on the lift and is an easy-to-use one click system.

Swivel Lever

The swivel lever is very easy to use, swivelling the seat safely away from the staircase towards the upper hall landing, allowing the user to get off the lift safely. The swivel lever is situated on the right and left side of the chair.

Footrest

The footrest is large and enables the user to place their feet comfortably for travelling on the lift. The darker colour on the top of the footrest ensures, stains or smudges from shoes won't show easily on this darker colour.

Rail

The aluminium rail has a slim design which gives it a modern look.

Always Put Customer Service First

As one of only a few manufacturers who are members of LEIA (Lift and Escalator Industry Association) you can have complete peace of mind, safe in the knowledge that you have chosen a company who have built a long and enviable reputation as a manufacturer.

'who always put customer service first'.
